

## Model with 256 Neurons and relu Activation

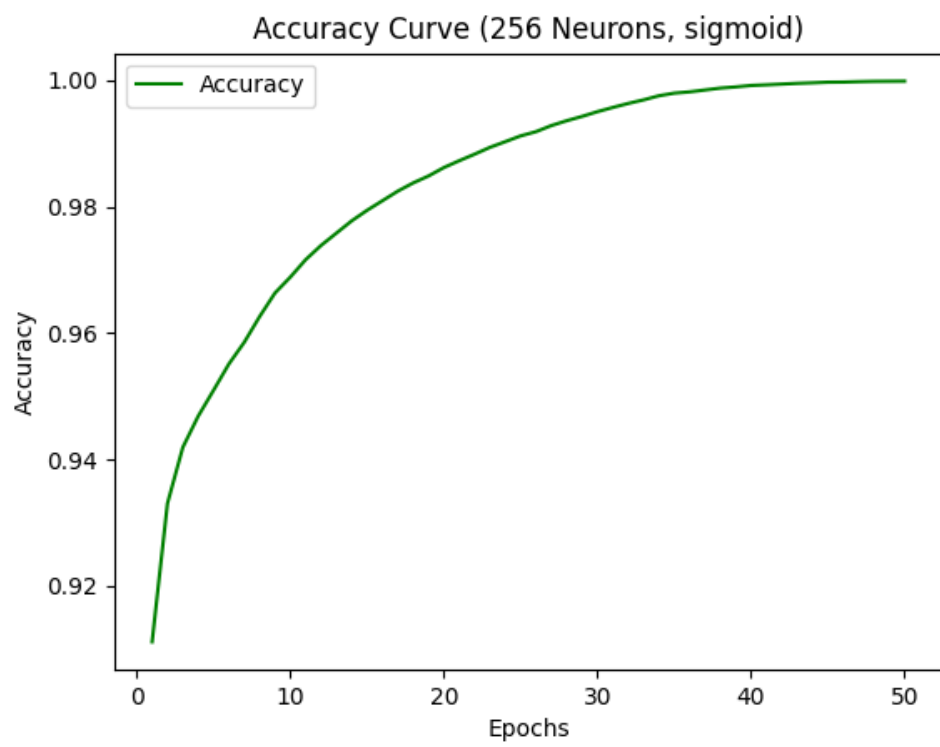

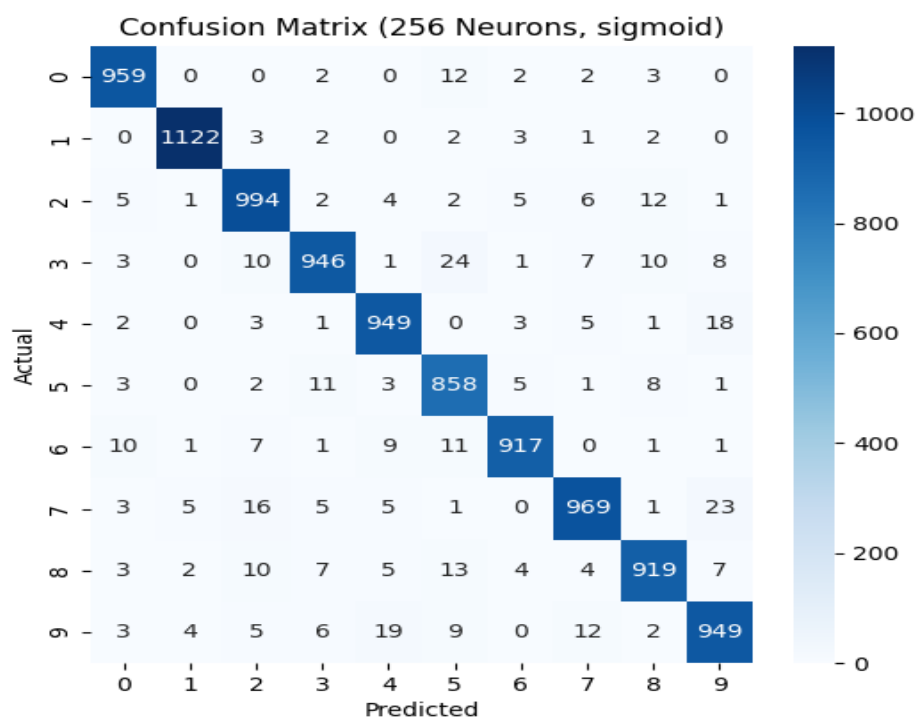

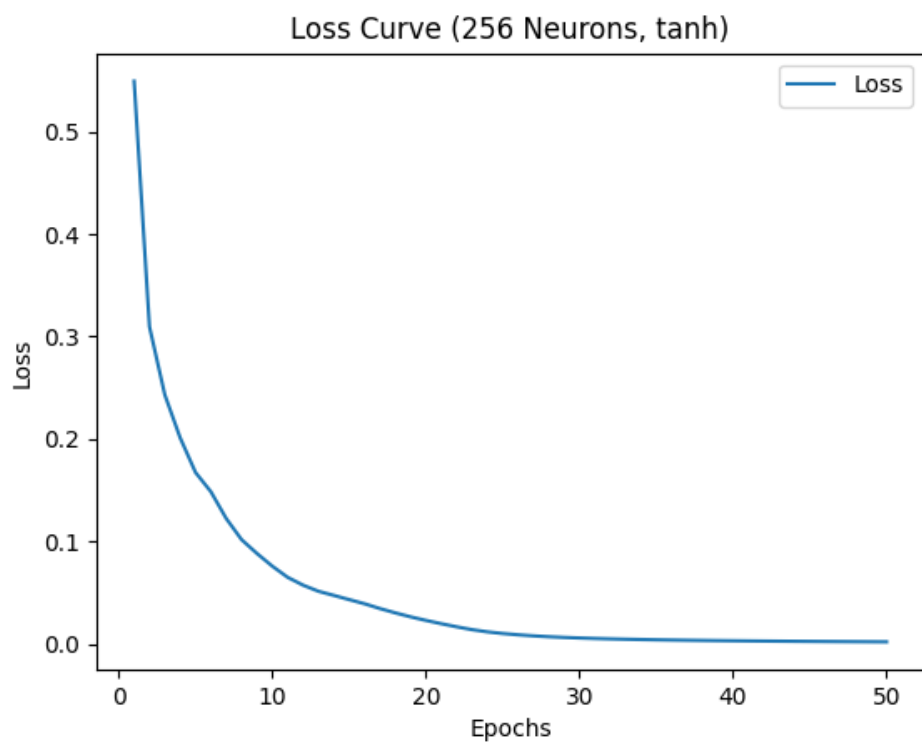

## Model with 256 Neurons and sigmoid Activation

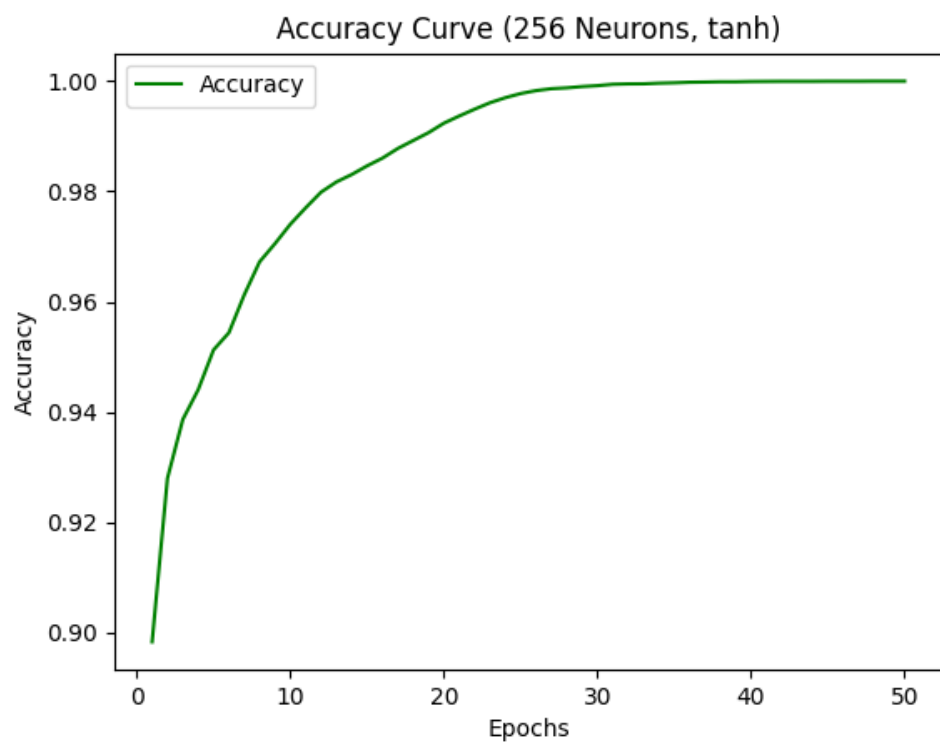

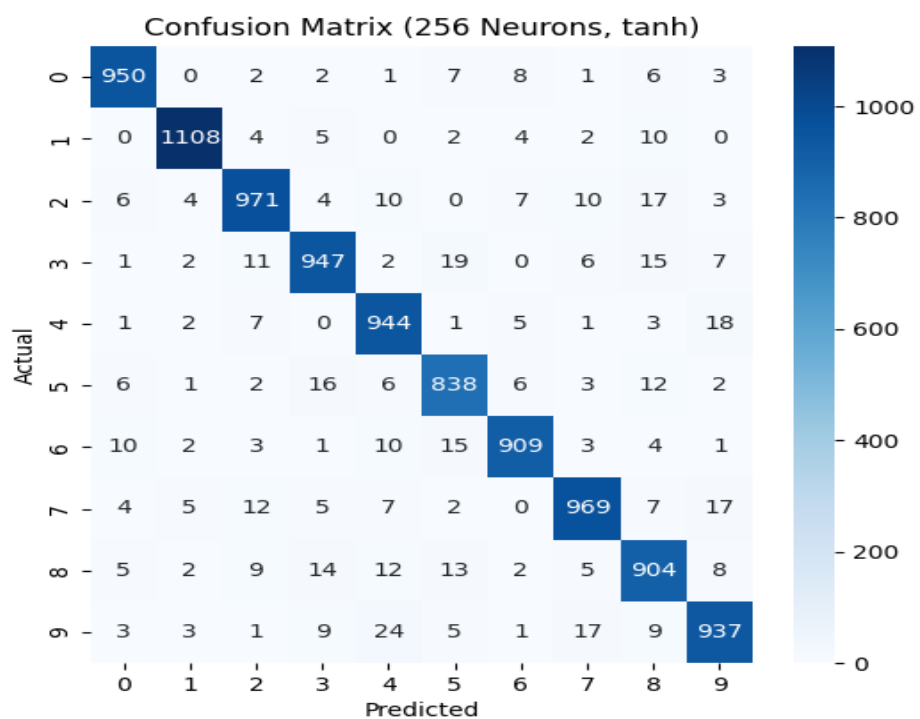

## Model with 256 Neurons and tanh Activation

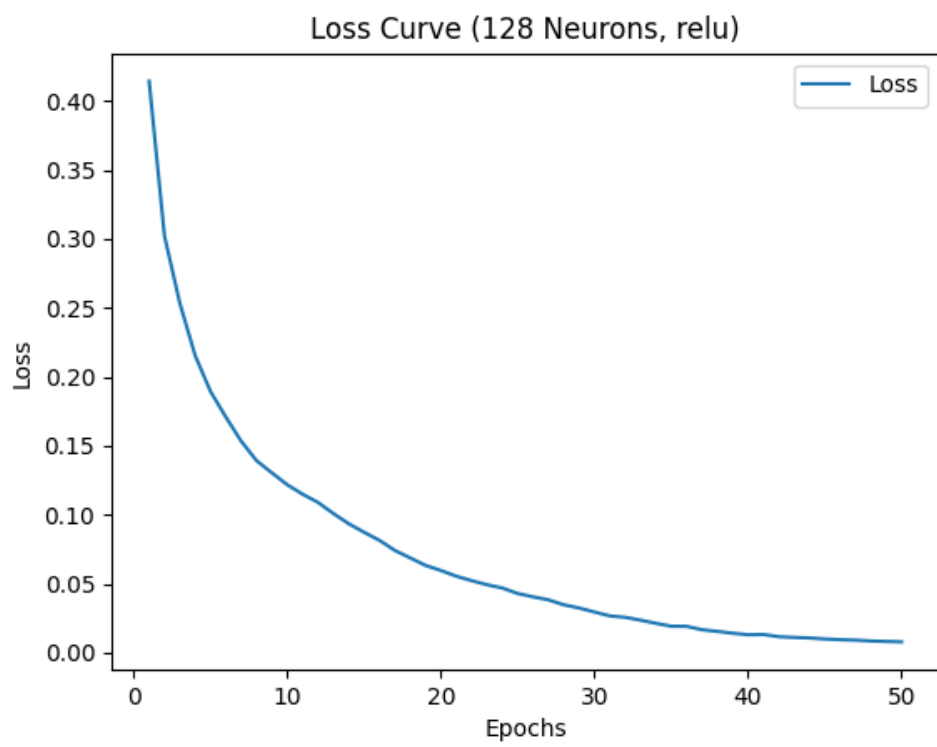

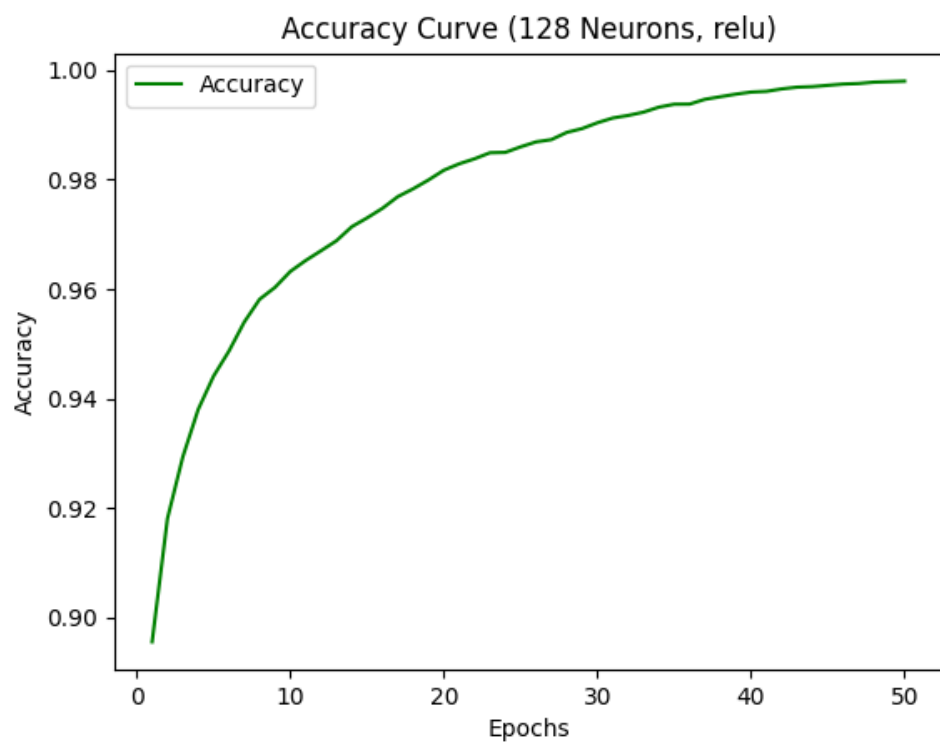

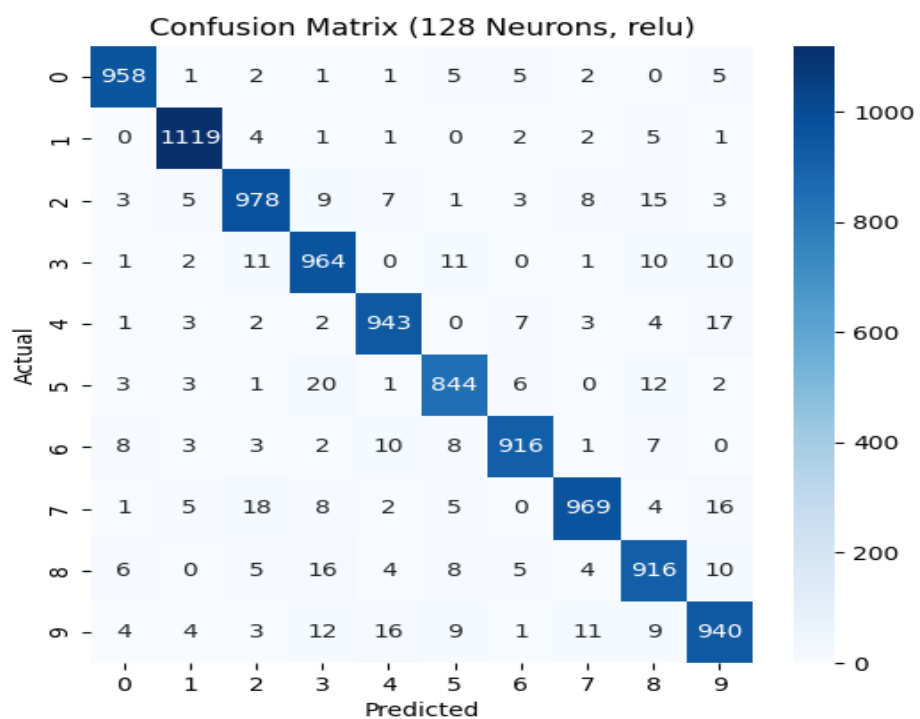

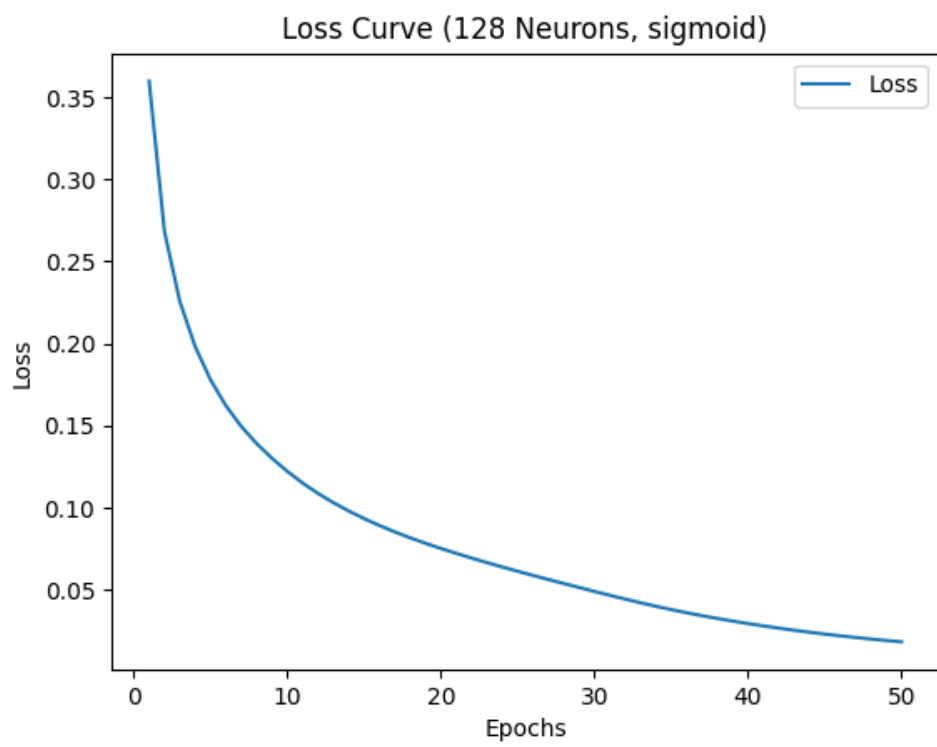

## Model with 128 Neurons and relu Activation

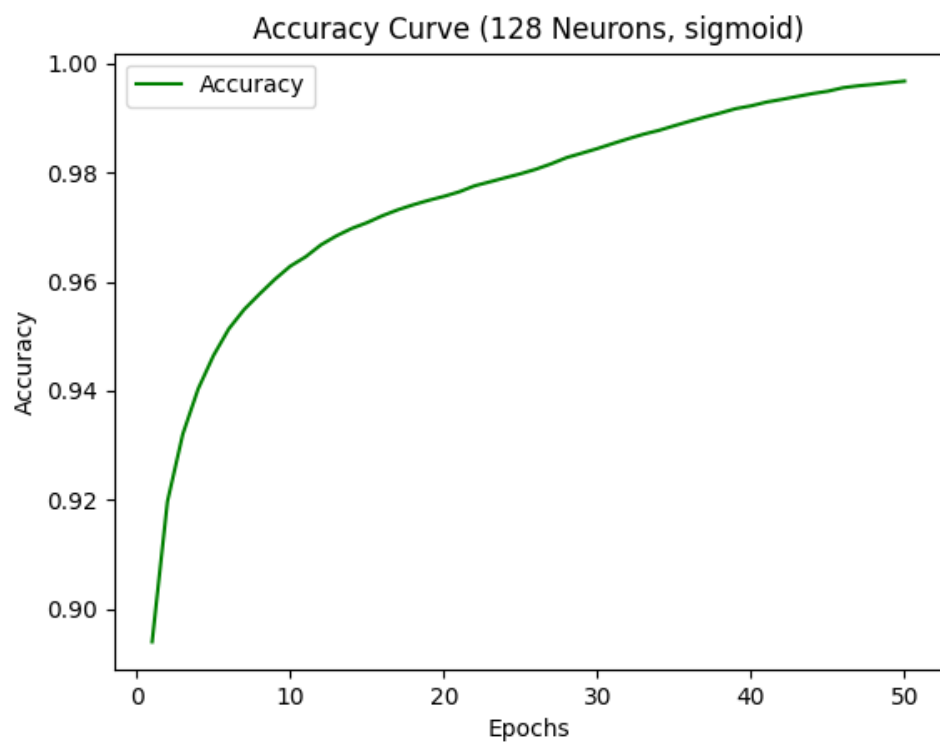

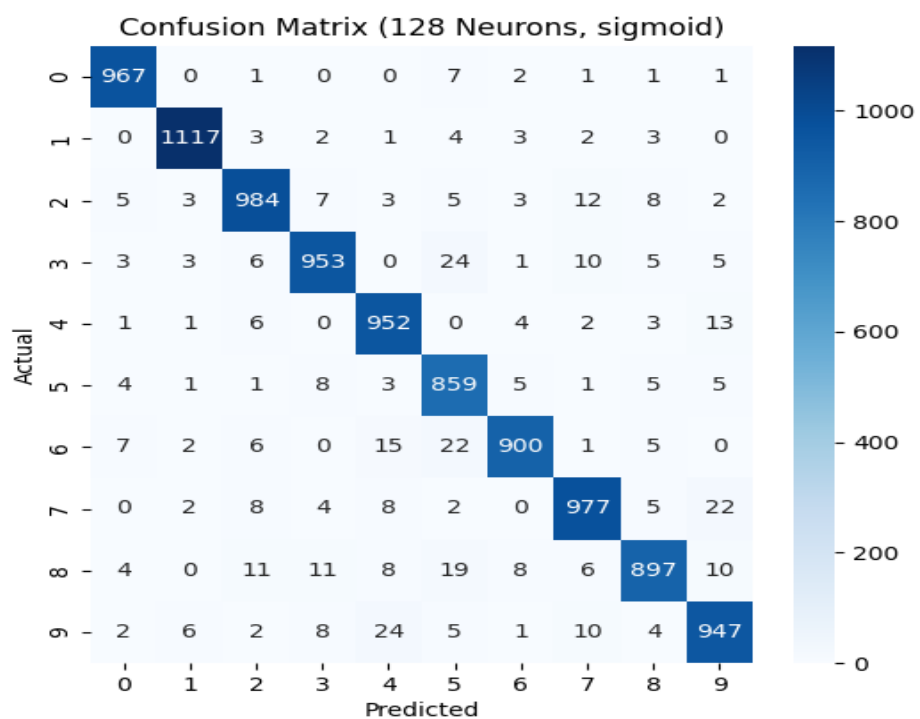

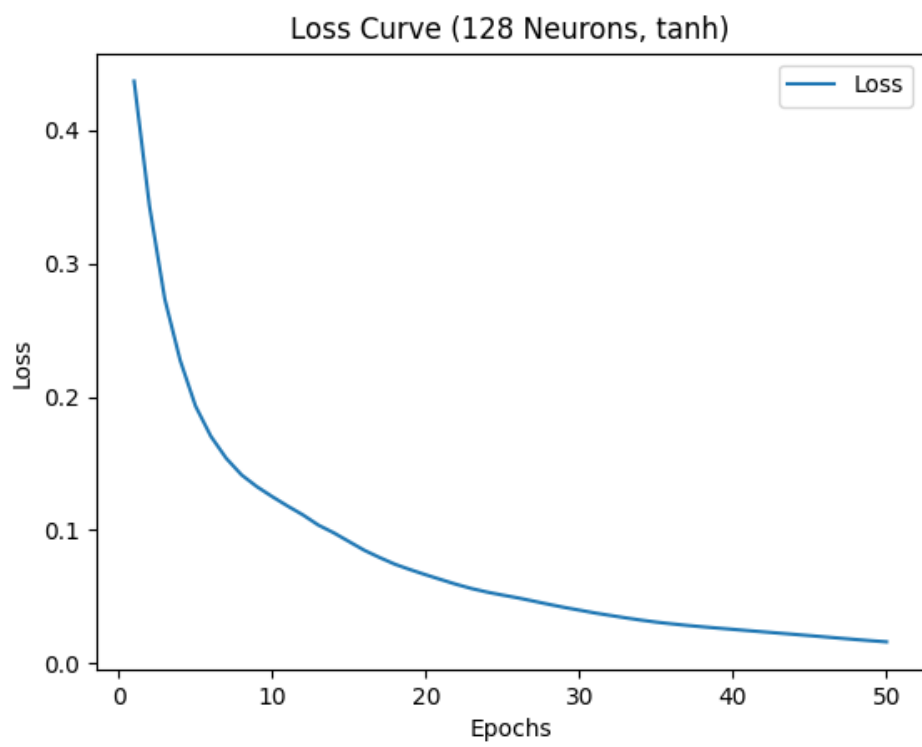

## Model with 128 Neurons and sigmoid Activation

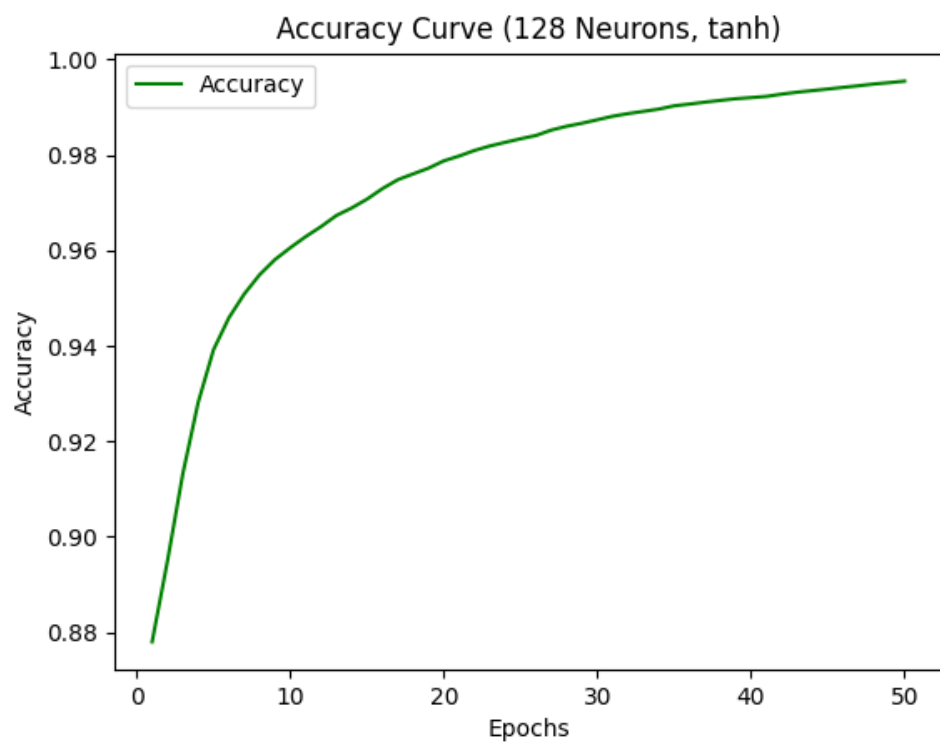

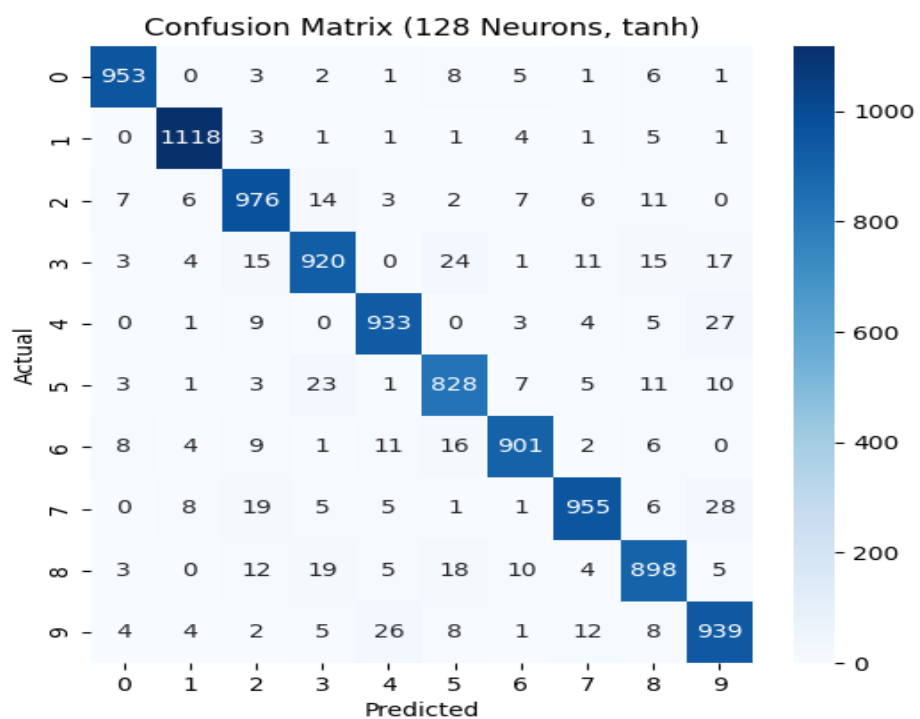

## Model with 128 Neurons and tanh Activation

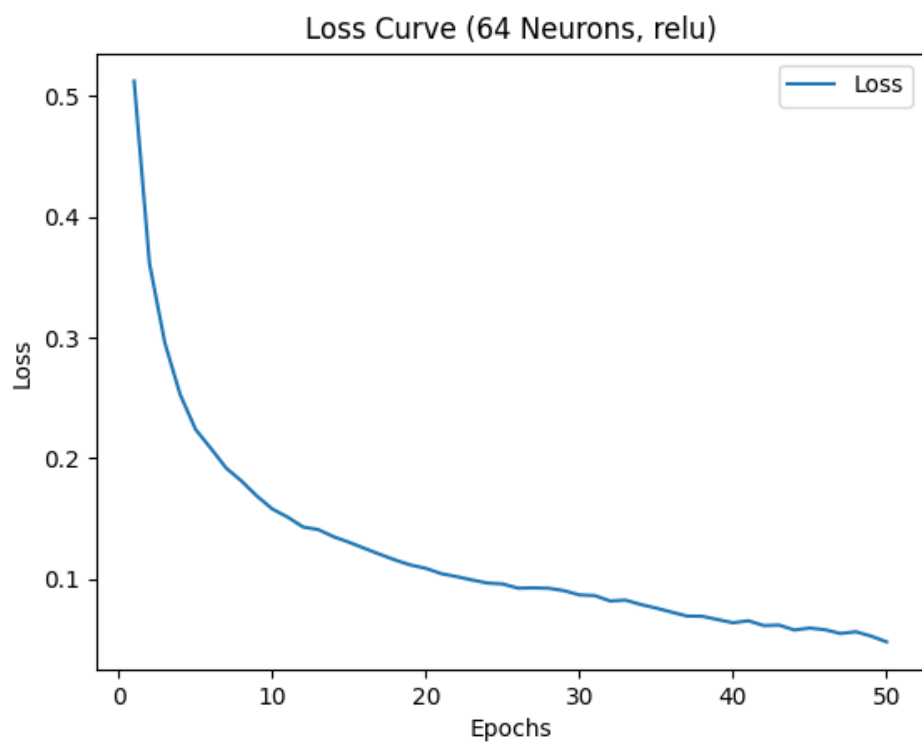

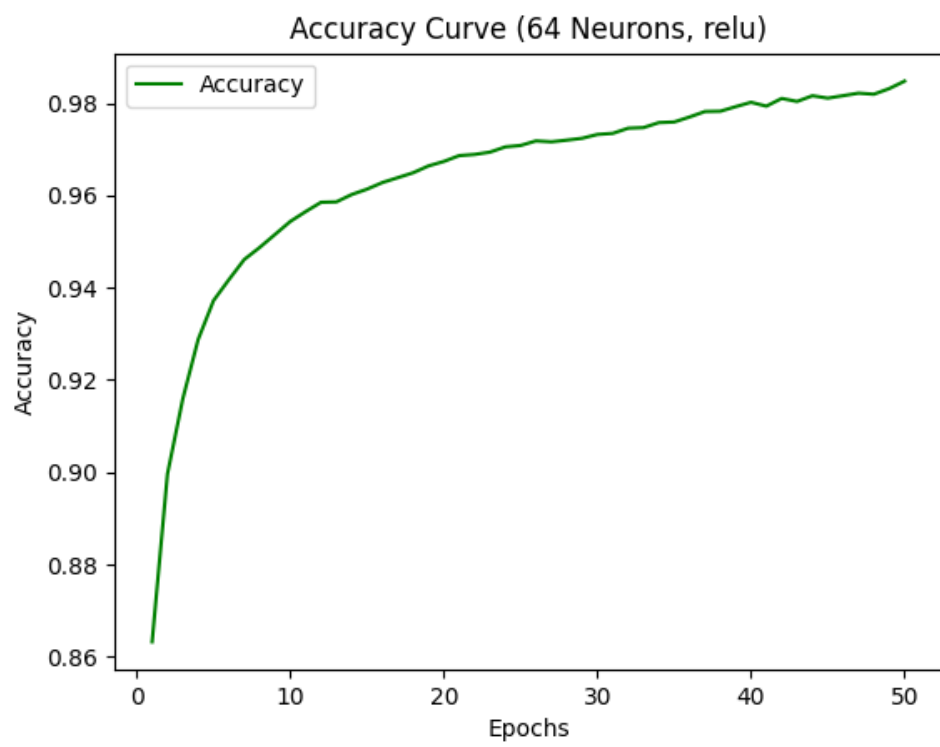

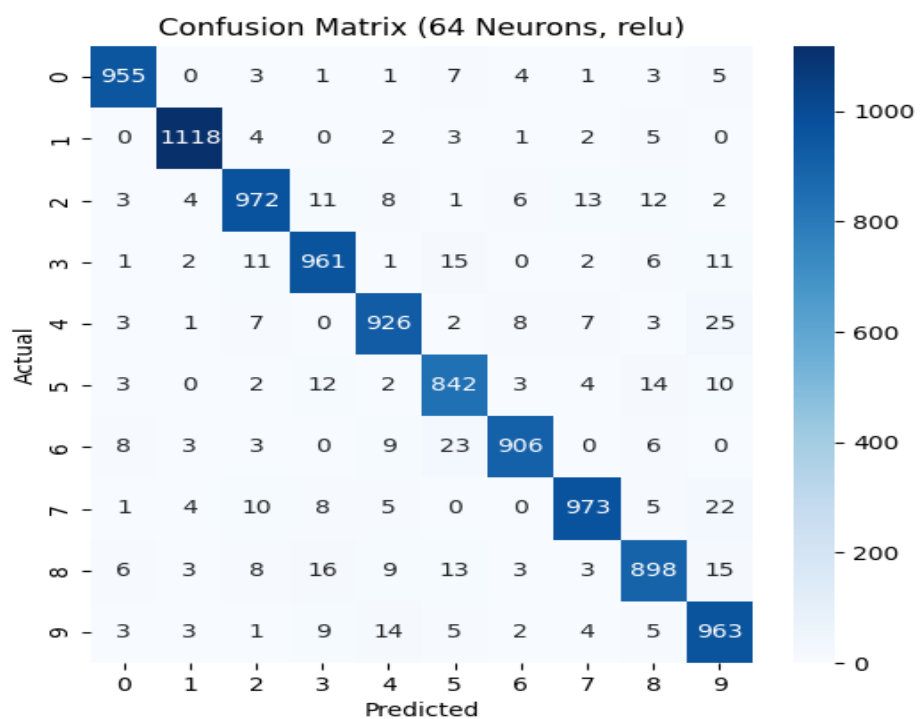

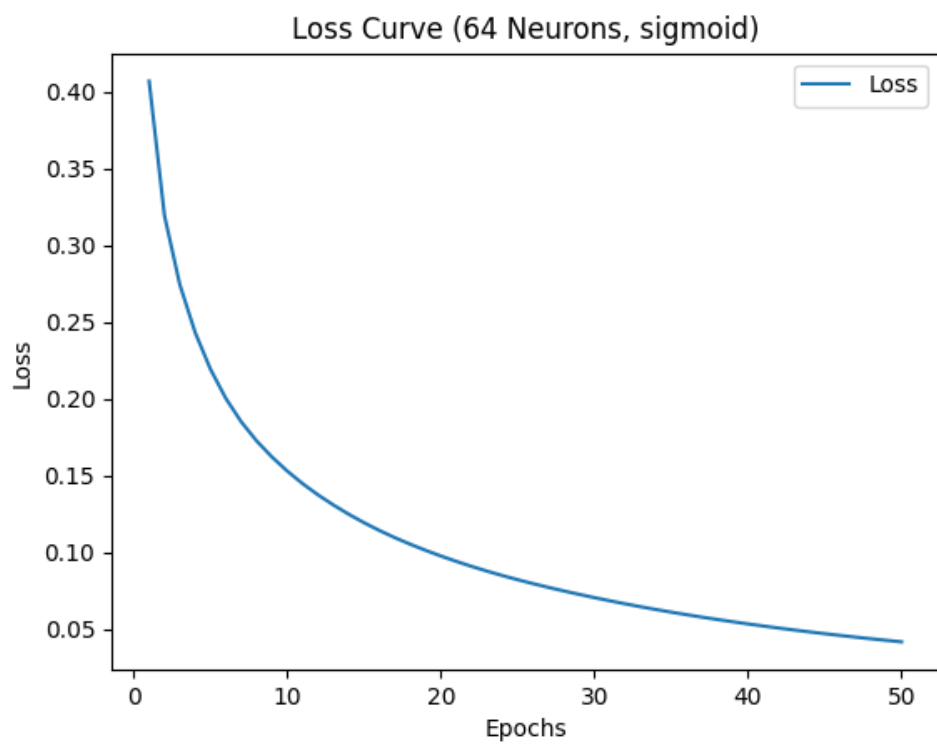

## Model with 64 Neurons and relu Activation

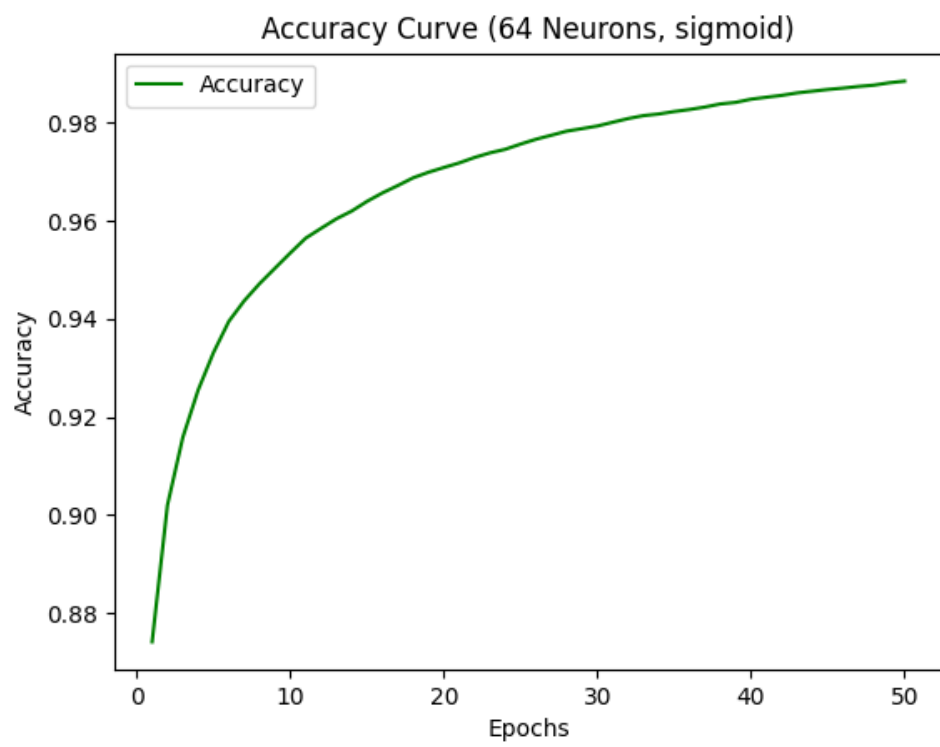

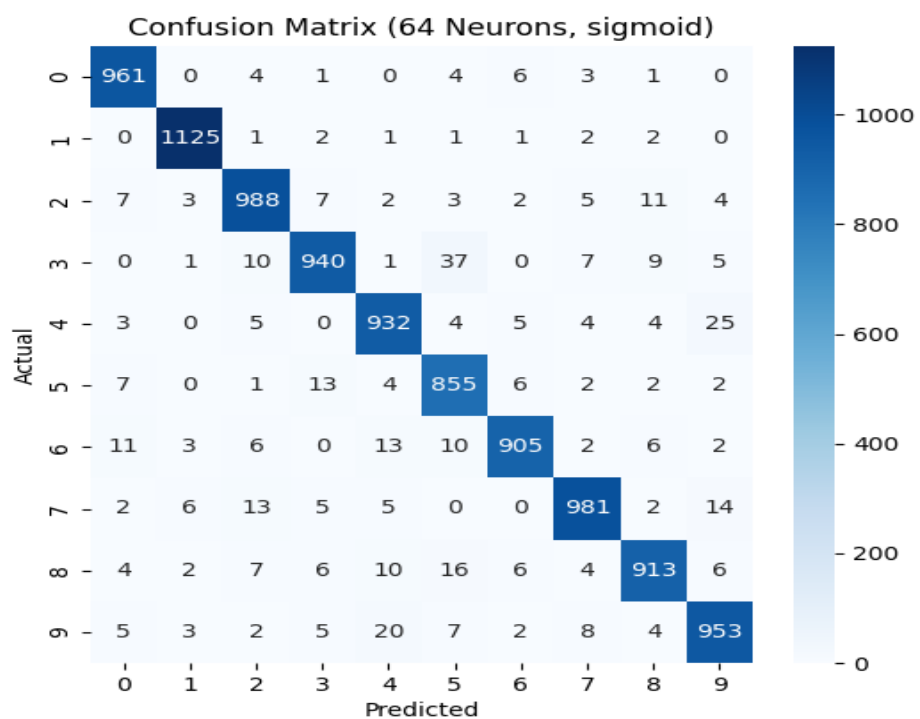

## Model with 64 Neurons and sigmoid Activation

## Model with 64 Neurons and tanh Activation
